

CREATIVE CONCRETE P

Imagine a world where creativity knows no bounds - a realm where a single, simple effect can evolve into a multitude of stunning forms. This is the enchanting essence of the Creative Concrete P collection. At first glance, concrete may seem ordinary, but within its robust surface lies the foundation for an extraordinary narrative. The Creative Concrete P collection is a diverse and modular masterpiece that starts with the raw beauty of concrete, then transforms it into a rich tapestry of variations. It metamorphoses into elegant stone textures, warm wooden finishes, intricate decorations, and classic brick patterns, each bringing its own unique charm and character. With this collection, designers are invited to unleash their imagination.

DARK INK

Venice, one of Italy’s wonders, is known for transforming even simple objects like glass into a work of art. Even on Venetian floor, the sensitivity and talent of the artisans was able to transform it into timeless beauty. In Dark Ink, the disorder of the terrazzo granules finds harmony in the colours black and white, resulting in a modern reinterpretation of the Venetian Battuto. The black brick in a matt finish give the original full collection a boost of design and elegance.
