Suggested text for prescription

NOFER automatic liquid soap dispenser with infrared sensor activation, made of AISI 304 stainless steel with polished finish. Wall-mounted with content display and safety lock.

Dimensions: 275 H x 105 W x 95 D (mm). Capacity: 1000 ml.

Components

- Stainless steel housing.
- Electronic infrared sensor that stops the dispenser when hands are removed from the detection field.
- With content display and safety lock.
- LED indicates when batteries need to be replaced.

Available

Also available in satin finish (NOFER 03039.S) and black finish (NOFER 03039.N).

Operation

Place your hands under the dispenser. The dispenser is automatically activated and remains in operation as long as the hands are within the sensor field. The dispenser switches off when the hands are removed.

Technical characteristics

Material: AISI 304 stainless steel

Approximate battery life: 20000 cycles

Finishing: polished

Capacity: 1000 ml. Refillable.

Operation: 6 1.5V batteries

Dimensions: 275 height x 105 width x 95 depth (mm).

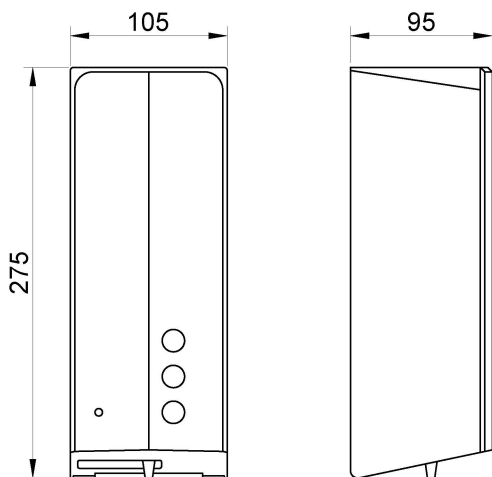

Installation

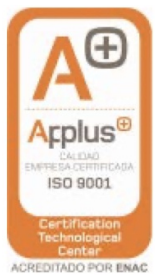

Place at least 45 cm from the worktop surface.

Maintenance

Stainless steel requires maintenance as dirt over time can damage the chromium (Cr) contained in stainless steel. We recommend a monthly cleaning with a specialized product for stainless steel.
